# Key Achievements

1

## 1. Online Platform

We've created a user-friendly online platform packed with educational tools and materials. This platform offers a wealth of resources on career counselling, covering topics from early childhood education to navigating the impact of COVID-19 on career choices. Teachers can easily integrate these materials into their lessons, empowering students to make informed decisions about their futures.

2

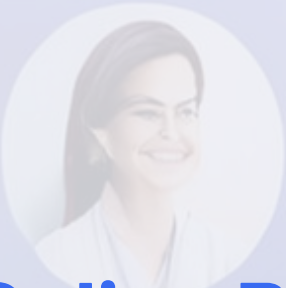

## 2. Toolkit For Parents

Recognizing the crucial role parents play in their children's career development, we've developed a comprehensive toolkit. This toolkit equips parents with the knowledge and skills to guide their children effectively, fostering open communication and informed decision-making within families.

3

## 3. Video Portal

Our video portal features 32 short instructional videos on various career counselling topics. These videos serve as a valuable resource for teachers, parents, and employers, offering practical insights and strategies for supporting young people in their career journeys.

# Project Impact

## 1 Bridging the Gap

Through our innovative approach, we've successfully bridged the gap between traditional career counselling and the evolving needs of today's students.

## 2 Holistic Support

By involving teachers, parents, and employers, we've created a holistic support system that empowers young people to navigate the complexities of the modern career landscape.

## 3 Empowering Individuals

We've created a future where everyone has the tools and support they need to achieve their career aspirations.
